Preface .....	v
---------------	---

---

**PART I – HOW ANTENNAS WORK**

1 Taking a new look at HF antennas .....	1
2 Waves and fields .....	7
3 Gains and losses .....	19
4 Feeding the antenna .....	29
5 Close-spaced beams .....	76
6 Arrays, long wires, and ground reflections .....	106
7 Multiband antennas .....	122
8 Bandwidth .....	144
9 Antennas for reception .....	151

---

**PART II – THEORY INTO PRACTICE**

10 The antenna and its environment .....	160
11 Single-element antennas .....	175
12 Horizontal beams .....	195
13 Vertical beams .....	221
14 Large arrays .....	238
15 Invisible antennas .....	245
16 Mobile and portable antennas .....	250
17 Small antennas .....	258
18 Making the antenna work .....	266
19 Antenna construction and erection .....	287
20 What kind of antenna? .....	304

---

Index .....	315
